- **Mobile:** React Native, Android Kotlin
- **Styling:** TailwindCSS, Flowbite, MaterialUI
- **Language:** TypeScript, JavaScript, Kotlin
- **State Management:** Redux Toolkit, Zustand

LANGUAGES

- Indonesia (Fluent)
- English (Intermediate)

PROFILE

With 5+ years of front-end development experience, I specialize in building fast, scalable, and accessible web and mobile applications using frameworks like Next.js, React, Angular, and React Native. I am passionate about creating seamless user experiences that are both visually appealing and high-performing across devices.

WORK EXPERIENCE

PT XL AXIATA TBK

2023 - PRESENT

Frontend Developer

- Developed responsive, intuitive, and engaging user interfaces for internal web applications using Next.js and React.
- Collaborated with business units to design and implement features tailored to their needs, ensuring seamless functionality and user satisfaction.
- Partnered with middleware development teams to efficiently integrate front-end components with backend services.
- Proactively identified and resolved technical challenges, driving continuous improvement in application performance and reliability.

AXIATA DIGITAL LABS

2019 - 2023

Frontend & Mobile Developer

- Sliced UI designs into applications using Angular CLI and Tailwind CSS.
- Developed mobile applications using React Native technology.
- Seamlessly integrated APIs to fetch and display data from the backend.
- Participated in all scrum ceremonies, including backlog grooming, sprint retrospective, and daily stand-ups.

METEOR INOVASI DIGITAL

2019 - PRESENT

Frontend & Mobile Developer

- Worked with various technologies, including React Native for mobile projects and Next.js for web projects.
- Developed new features and improved existing functionalities to enhance user experience and meet project requirements.
- Implemented responsive design principles to ensure seamless user experiences across different devices for both web and mobile projects.

EDUCATION

Bootcamp Trainee Fullstack Developer

2019

Arkademy (Pijar Camp)

Computer & Network Engineering

2016 - 2019

SMKN 2 BOGOR

PROJECT

XL SATU Selfcare

This app was built to help XL SATU users manage their subscriptions and services, providing a centralized platform for account access, billing, and package monitoring.

Tech Stack: React, Next.js, Typescript, Redux Toolkit, Tailwindcss

NewXLife

NewXlife is an employee management app for XL Axiata, featuring attendance tracking, daily health reporting, WFO assessments, shuttle car reservations, a Family Member menu, and more

Tech Stack: Angular 11, Typescript, Tailwindcss, Material UI

XL - AXIS Prepaid Registrasi

A secure registration system for new XL and AXIS prepaid numbers, utilizing biometric verification to ensure the user is genuine and their identity is valid. The platform captures a live facial photo and requires users to input their NIK (Nomor Induk Kependudukan). Both the face and NIK are cross-checked with the Dukcapil (Indonesian Civil Registry) to confirm identity accuracy and prevent fraud.

Tech Stack: React, Next.js, AWS Amplify Face Liveness, Redux
